3) History:
The College of Humanities and International Studies was established in 2015 by combining two major colleges of Keimyung University: The College of Humanities and the College of International Studies.

The College of Humanities has its origins in the Philosophy Department and English Language and Literature Department of Keimyung Christian College, which was founded in 1954 and subsequently became Keimyung University in 1978. At that time the Humanities College had a
total of six departments (Korean Language and Literature, Philosophy, History, English Language and Literature, German, and French). Then in 1987, in accordance with a newly adopted system in higher education, the college was subdivided into two different tracks: the Humanities Track (Korean Language and Literature Department, Philosophy, History, and History) and the Language-Literature Track (English Language and Literature Department, German, and French). In 2003, these two tracks became two independent colleges: the Humanities College (Korean Language and Literature Department, Philosophy, History, Ethics, Theology, Creative Writing, and Korean Studies) and the Foreign Language-Literature College (English Language and Literature, German Language and Literature, French Language and Literature, Chinese Language and Literature, Japanese Language and Literature, and Russian Language and Literature). In 2007 these two colleges were reunited as the Humanities College, which now has a total of twelve departments.

The College of International Studies first opened its doors in 1979 under the name of the College of Foreign Studies. Established as the first college of area studies in Korea, it was selected in 1997 by the Ministry of Education and Human Resources as a government-sponsored college to nurture experts in foreign cultures and international relations. The college focused on developing the practical expertise and capabilities of students thus helping them become true leaders in a global community.

This study enables students to find out solutions to the problems besetting society, through an understanding of historical facts. It is our purpose to develop professionals with a sound historical consciousness and ethical Christian belief, who are able to participate in the development of society.

2) History
The History Department, which began as the History-Geography Department in 1956, got the title of the History Department in 1966. Since foundation, it has produced over 1,300 alumni at bachelors level and 110 at master's or doctorate level. Our graduates currently work at universities, middle or high schools, museums and a variety of associated institutions, working for the betterment of Korean society.

3) Faculty Members

10) Disaster Evacuation Training

Earthquake
① The campus buildings are built from concrete without earthquake resistant design.

② When you sense an earthquake, open the closest door wide.
- There is a possibility that you cannot evacuate as the door may not be opened due to the twisted status of the building. The person who first opened the door should shout fire and keep others informed about a fire escape

③ Protect your head with a book, laptop or other article which can protect your head.
- Underground facility is relatively safer than on-ground facility, but you should keep waiting at your place until the shaking stops. As delay of evaluation to underground facility may occur due to a massive number of people flocked. Therefore, start evacuation from letting people near the exit out under the direction of the leader. If you stay on third or fourth floor which is relatively upper floor of the building, you must get under the desk or the table when the earthquake occurs as it is likely to evacuate depending on the condition of damages on the building (Evacuate immediately when the strength of earthquakes is lowered.)

④ Evacuate quickly through where a door is opened
- Run crouching down and covering your head and evacuate avoiding windows
  (Do not evacuate through windows as those on the first floor tend to be seriously damaged during earthquake.)

④ After evacuation, move to a wide empty lot
- Wait for rescue standing up for preventing damages from additional minor shakes (It is dangerous to squat or lie on the ground after evacuation.)

- How to evacuate building on fire
  - Activate a fire alarm.
  - If you cannot go downstairs, go onto the rooftop.
  - Make your face and body covered with wet blanket or towel when you should run into flames.
  - If door handles are too hot to turn, do not open the door and find another way.
  - Once you evacuate, do not go into the building again.
  - After evacuation, wait for rescue at the windward side.

⑩ How to deal with fire following earthquake
1. Shout ‘Fire!’ immediately after feeling minor quakes before the next big quake to alarm around and turn off the heat.
2. Shout ‘Fire!’ when big quake stops. Put out the fire.
3. The big aftermath is exhausted within one to two minutes, so you can put out in its early stages. Keep fire extinguisher or big fire-extinguishing bowl at any possible spot of fire for immediate action.

11) Parking on Campus
- Parking permit is issued on application in the beginning of the semester.
- You should park at only designated space.
- Only local and street students can use the parking permit at school.

Three Recommendations for A Better Campus Life

Three Recommendations for Better Campus Life

Reading
People say that you are not an educated or a cultured person unless you have read 'Mun-Sa-Cheol 600'. Mun-Sa-Cheol 600 means 300 books of literatures, 200 books of history and 100 books of philosophy and it is a strict lesson that you cannot be raised to the intellectual without reading them at an early age. Needless to say, there are heaps of benefits of reading books. Not reading books can be evidently regarded as that you are apathetic about your inner world.

Writing
It is said that 'records last longer than clear memories'. Particularly, recording is very useful in your schoolwork. Have a habit of writing notes helps your memory, makes you monitor yourself and leads you to be grown and developed. If we could only rely on memory without recording, we would lose a lot. The simple habit of filling your small notebook with records in each semester will become a present called 'self development and growth'.

Speaking
Nobody will read what you think if you do not speak because we are belonged to the world of human beings. We ever expected that someone would understand our thoughts even though we do not speak. You you are a grown-up in university and you should express your thoughts now and soon. Also, you will face a lot of opportunities for joining a discussion for a specific subject. Discussion is a speaking technique that argues logically proving with reasons to carry each other in respect of a subject split to the position between 'Agree' and 'Disagree'. Discussion (Speaking) is a basic living of an intellectual.
